pablodiaztr@gmail.com

Hard-working programmer with the ability of breaking down complexity and creating creative solutions in a timely manner. Developed a YouTube video embedding web-app with a team of 3, built a 21-level AppStore Mario-like game, and collaborated with a team of 6 to build a transportation-as-a-service web-app. Passionate about database management, cloud computing, cyber security, and web technologies, I am looking to use my web-programming skills to create value for the company and boost its efficiency.

Technical Skills Include:

HTML

CSS (bootstrap)

JS (jQuery & React)

Python

Java

PHP

SQL

Node.js

Adobe Illustrator

Key Strengths:

- Analytical and systematic problem solver.
- Knowledgeable in IaaS and Cloud technologies.
- Ability to act as project manager by utilizing communication and teamwork skills.
- Ability to effectively communicate with others, presentational, and good interpersonal skills.
- Fluent in English and Spanish.
